

# AN EYE OVER THE WORLD

## Technically the best

World Wide Vroom karting magazine is a new magazine printed entirely in English. It is distributed to countries all over the world and about 50% are technical articles. You will also find track tests of engines,

[www.vroom.it](http://www.vroom.it)

chassis and other components. A new section "Engine tuning" gives professional hints directly from experts. The magazine also covers international events and national championships held in various countries.
